

## DRAW THE TEXAS BLIND SALAMANDER

The Texas Blind Salamander is adapted for living in underground water found **ONLY** in the Edwards Aquifer. The species needs a constant supply of clean, cool water to survive.

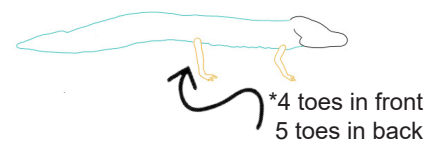

STEP 1: THE HEAD

STEP 2: THE BODY + TAIL

STEP 3: THE FEET\*

STEP 4: EXTERNAL GILLS

STEP 5: THE "EYE"\*

\* Adapted to living in water underground, it has no eyes, only two small black dots under the skin.

STEP 6: SHADING
